

MC5-D Hydraulic Crawler Mounted Drill Rig with Power Pack – S/No: 2137

Medium sized drill rig with separate power pack, specifically designed for Ground Engineering and Piling works in confined or low overhead spaces and difficult access jobsites.

- Used for predominantly Mini Piling applications.
- Mounted on a crawler chassis with adjustable tracks. Width: 750 – 1050mm
- Hydraulic stabilizing jacks.
- Large range of mast articulations with mast cinematic assembly.
- Double element mast.
- Powered by a JOHN DEERE 4045 HF 86kW diesel engine.
- Silenced power pack canopy and rotation guard manufactured to C.E. Conformity.

Specification:

- 1300 – 2300mm Feed Stroke
- 2400 – 3400mm Total Length
- 6000Kg Feed / Retract Force
- Three Speed Rotary Head

R2400	Gear 1	Gear 2	Gear 3
Torque (daNm)	2400	1600	800
Speed (rpm)	20	30	60

- Hydraulic Casing Clamp
- Clamp Reduction inserts: OD 344, 406, 508mm
- 1000Kg Winch
- Hydraulic set up for rod holder/ combined breaker
- 4" Concrete Swivel
- Drill Weight: 5300Kg
- Power Pack Weight: 2100Kg

Comacchio MC5-D machines are available to purchase from JKS Boyles.
